

Great Smoothie Flavors!

High quality CT images and the advantages of E-Z-EM CT oral contrast

E-Z-EM CT Oral Contrast gives practitioners distinct advantages over iodine that should make it the contrast of choice for all routine abdominal/pelvic scans.

All Smoothie Read-Cat® 2 CT Oral Contrast products offer:

- Great flavors for patient compliance
- Fast transit time—comparable to iodine
- Patients can self-administer at home
- Well tolerated by patients—no iodine side effects
- Consistent, uniform opacification
- Cost-effective dosing and packaging

New!

For routine abdominal/pelvic scans

CT Oral Contrast
